

# Calico Blinds

## Calico Blinds

**Calico Blinds** are a simple, stylish and cost-effective window dressing for any home, combining the elegant look of a traditional Roman Blind with beautifully natural fabrics. The result is wonderfully light and modern.

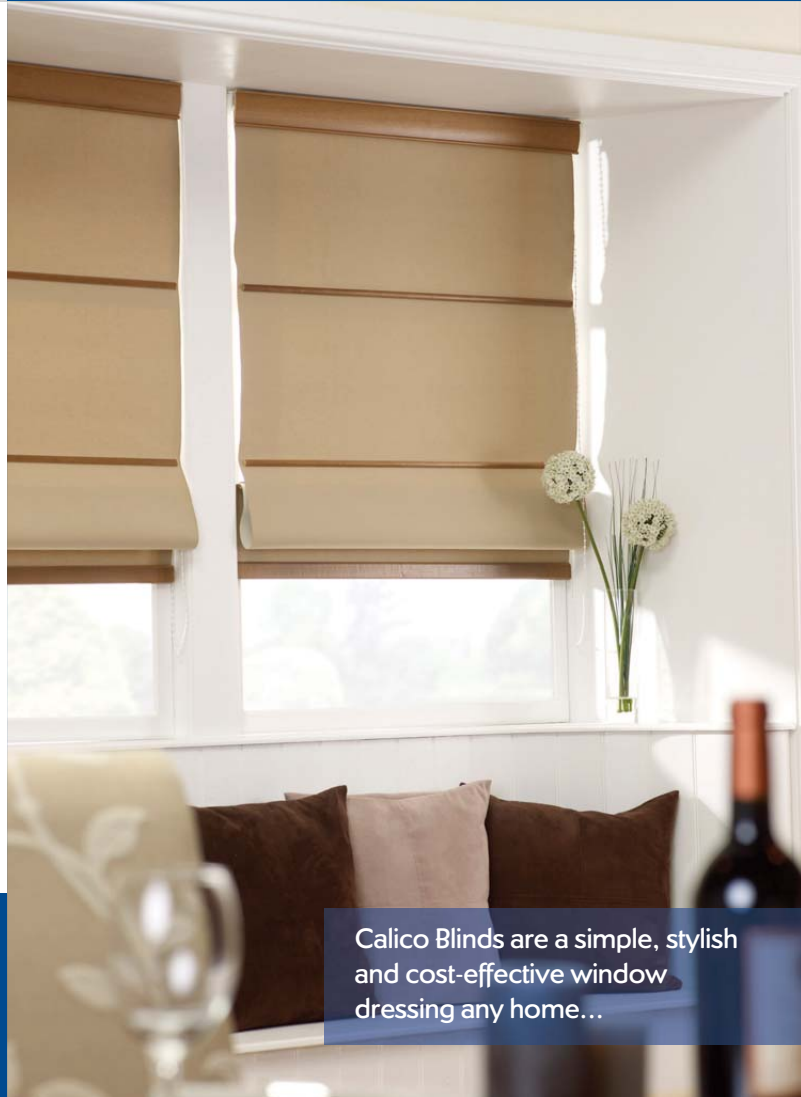

With Calico Blinds, the wooden batons across the blinds become a design feature. This gives a perfect symmetry and provides the opportunity to create a truly individual look by choosing different shades of wood to match or contrast with the fabric.

With Calico Blinds, the wooden batons across the blinds become a design feature

## Perfect Symmetry

**Calico Blinds** have long been popular in Australia, where this natural looking and lighter-weight blind is popular in beach huts and summer homes. The exposed wooden elements of the blind are in harmony with the trend for wooden flooring and furniture in our homes.

This range of blinds is modern and different. Every blind is made to measure to your exact specifications to suit you and your home perfectly with no compromise on quality.
