use

Eclipse

This stylish lightweight cantilever parasol is extremely easy to use. It rotates 360°, has a very useful tilt function and an easy to use lever system to open the canopy. The Eclipse creates an exclusive shade solution for residential and light commercial use.

Frame

Aluminium mast and ribs, stainless steel fittings with tilt mechanism. Glass filled nylon hubs, designed to allow easy replacement of components, thus ensuring long term investment protection. Opens with a simple lever system.

Canvas

High grade canvases available in standard acrylic or Sunbrella fabric. Connected to the frame with stainless steel eyelets and bolts, to make replacing canvases simple. Fitted with an air vent for additional stability.

Available sizes

2.5m Square
3.0m Square
3.2m Octagonal

Options

Heavy duty PVC cover bags for protection when parasols are closed.
Base with concrete slabs.
Deck mount.
In ground base.

Printing

High quality screen printing is available with no minimum order quantity.
