

Flexible

Flexible wall mounted parasols

Aluminium frame and arms

High grade fabrics

Wide range of colour options

Paraflex

Flexible wall or pole mounted parasol system. Lightweight and easy to use, ideal for domestic and light commercial use. Parasols are mounted on an adjustable arm that can be tilted and easily moved to adjust the position of the shade. Arms can be fixed to a wall or mounted on one of the Paraflex poles for additional flexibility.

Frame

Parasol frame and adjustable arms in aluminium. All components can be easily changed to ensure long term investment protection.

Canvas

Canvases available in polyester, acrylic and solution dyed Sunbrella fabric. Fitted with an air vent to release gusts of wind, a zip to enable the parasol to close whilst on the arm and pockets to enable easy changing of the canvas.

Available sizes

- 1.9m Square
- 2.2m Hexagonal
- 2.7m Hexagonal
