Gallery

The following images show some installations of the range. If you have an unusual installation requirement please discuss with staff for advice & assistance.

Robust construction

Crank operation to raise & lower

Very simple to adjust the tilt of the parasol

Stove enamelled finish for years of use

Crank tilt adjust

Rotate the parasol with the simple to use pedal lock

Fixing

Using ground anchor

Concreted into ground for permanent secure fixing.

Using cross foot. Adaptable & can be moved to suit the location. The stabilising weight is provided by concrete slabs placed onto the foot.

Left & far left:

Surface fix foot : Very useful option that will bolt to an existing secure surface, such as an outdoor spa concrete base, decking (securing to the decking sub structure) or even to the house wall, by virtue of an adaptor back plate.
